

7th Meeting of Low-Carbon Model Town Task Force

Report on APEC Low-Carbon Model Town Project Phase 3

May 2014

Shobu Nagatani

Agency for Natural Resources and Energy

METI, Japan

CONTENTS

1. Overview of the APEC Low Carbon Model Town (LCMT) Project
2. Progress of the LCMT Phase 3 Project
3. Future Development of the Phase 3 Project
4. Outcomes of the LCMT Phase 3 Project

1 Overview of the APEC Low Carbon Model Town Project

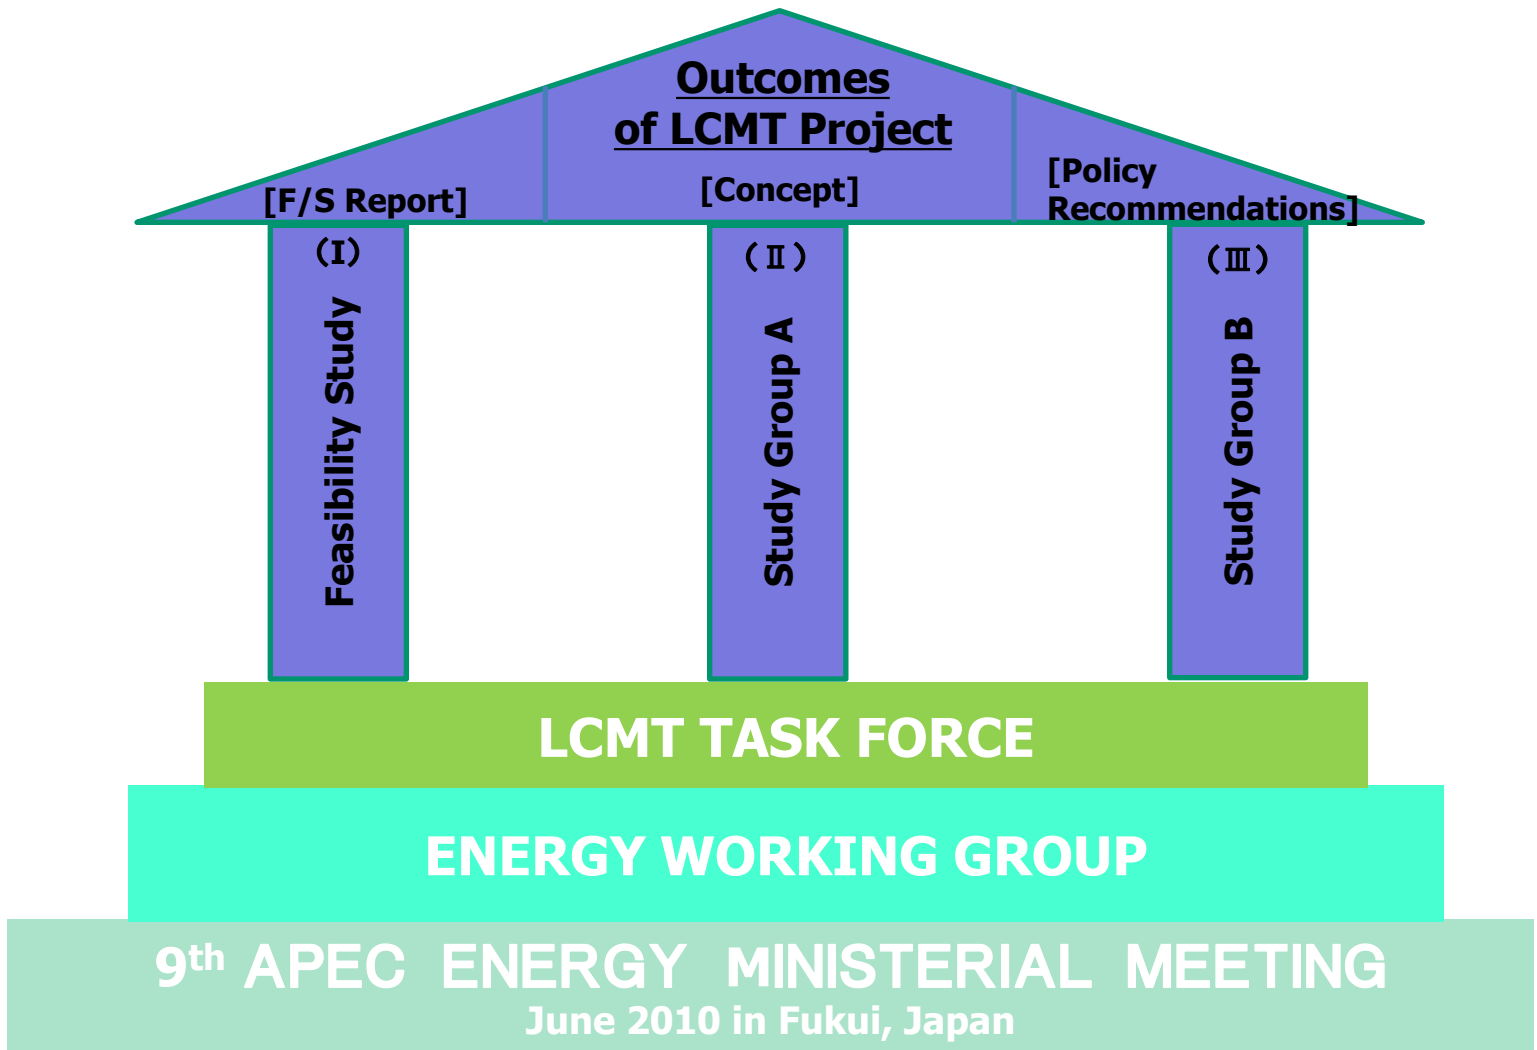

9th APEC Energy Ministers' Meeting (Fukui, Japan - 19 June, 2010)

Role of the LCMT Task Force

- ✓ Develop the Concept of the Low-Carbon Town in APEC Region
- ✓ Conduct Feasibility Study on selected case town
- ✓ Share best practices for making low-carbon communities a reality

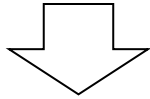

1 Overview of the APEC Low Carbon Model Town Project

2-1 Progress of the Phase 3 Project - Feasibility Study -

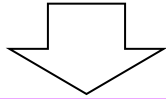

28 December 2012

Final Approval of BMC and SOM of LCMT Phase 3 project

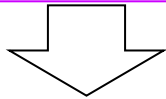

April 2013

The suitable consultant was identified through the APEC project tender process for LCMT Phase 3 project

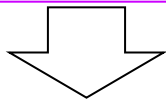

April 2013

Feasibility Study by selected consultant was started

November 2013

Progress Report was presented to LCMT Task Force members and EWG members at EWG 46

2014

Final Report on the Feasibility Study was published

2-2 Progress of the Phase 3 Project - Concept (Refinement) -

“The Concept of the Low Carbon Town in APEC Region”
will be tailored for **Redevelopment of existing sites**

Task Force Japan

- ✓ Prepare preliminary draft
- ✓ **Study inclusion of indicators**

Study Group A & LCMT Task Force

- ✓ Site visits on low-carbon development projects in July in the USA and Peru
 - To hear and visit low-carbon town cases in advanced and developing APEC economies
 - To hear existing activities on low-carbon town indicators

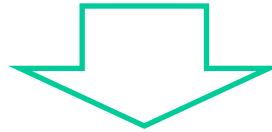

The Refined Concept was distributed and endorsed by EWG members

2-3 Progress of the Phase 3 Project - Concept (Indicator) -

In the future, increase in low-carbon town projects in many economies and regions is expected

- A uniform methodology is necessary to promote low-carbon towns.
- Use of low-carbon town indicator in projects is desired

[Propose APEC Low-Carbon Town Indicator]

Form comprehensive and integrated Low-Carbon Town Indicator that can

- 1) adequately study low-carbon measures**
- 2) manage project progress of low-carbon town projects by referencing past LCMT outcomes**

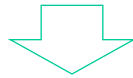

3 Future Development of the Phase 3 Project - Policy Recommendations -

"Policy Recommendations"

Recommendation on regulatory schemes, technical matters, etc.

Study Group B

- ✓ Conduct Peer Review

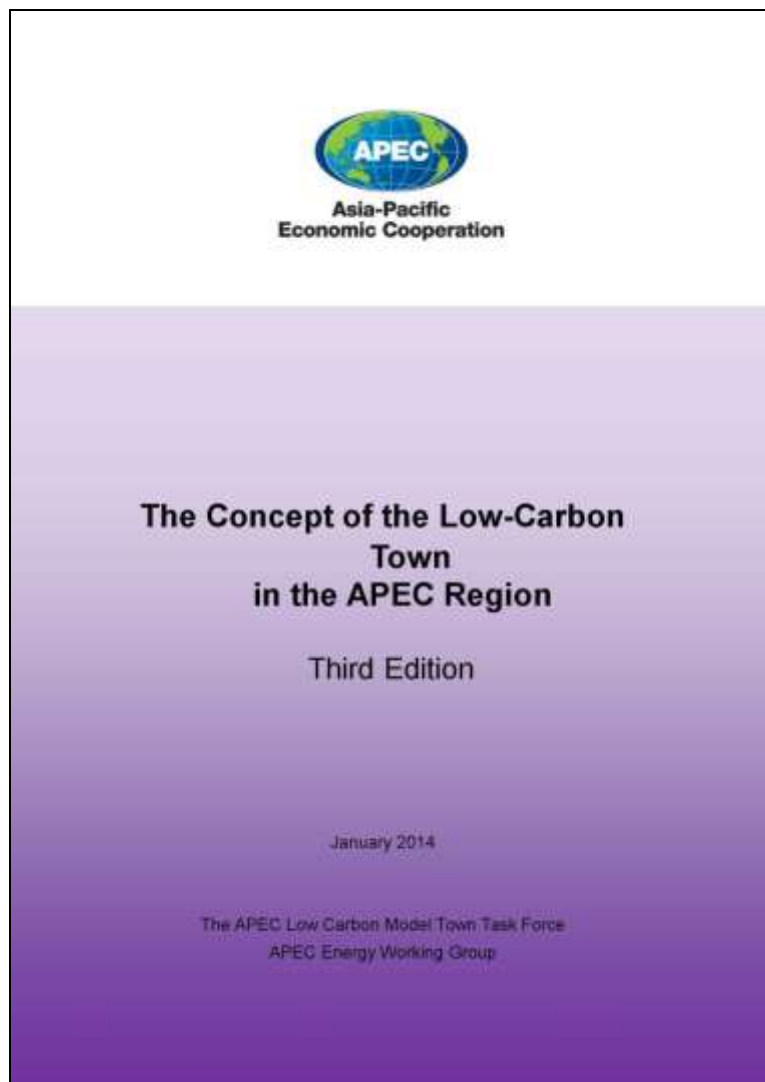

Site Visit (Da Nang City, December)

- ✓ Collaboration with **the OECD**

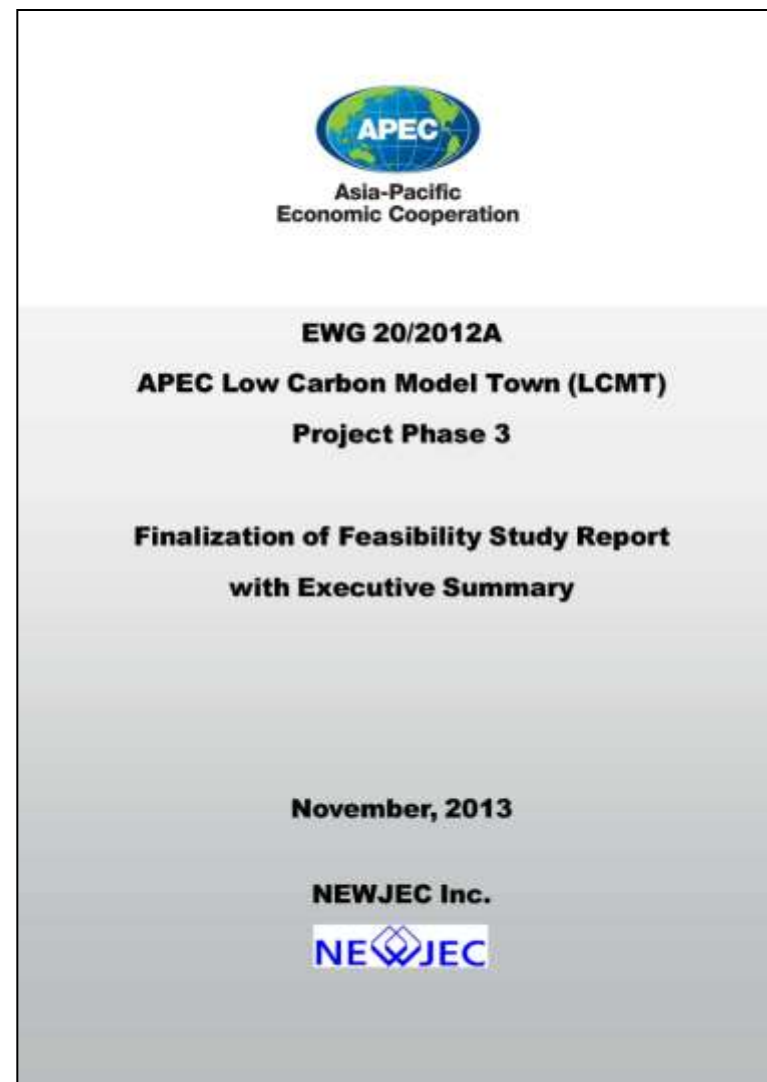

"Policy Review Report" is now distributed to EWG members

4 Outcomes of the LCMT Phase 3 Project
