Welcome to NCC Tutor, an ABCB Licenced Product for education providers.

There are nine different topics in the NCC Tutor series, including an introduction to each NCC volume and volume specific information about energy efficiency and disability access. Each NCC Tutor topic is available in a 'clean' PowerPoint format with notes (i.e. the script) and accompanying multiple choice questions. Examples of the type of information included are shown on the right.

NCC Tutor provides an opportunity to deliver ABCB content about the NCC using your logos, branding and preferred delivery method. NCC Tutor is a complete product however, and the content cannot be changed in any way. So while education providers are encouraged to deliver the content in whatever medium is suitable for their audience – whether it's a webinar, online training or lectures – the content must not be altered.

Note that from time to time, the ABCB may contact you about changes or amendments made to the content of NCC Tutor.

Contact Us for further information or to request access.

Compliance with the NCC

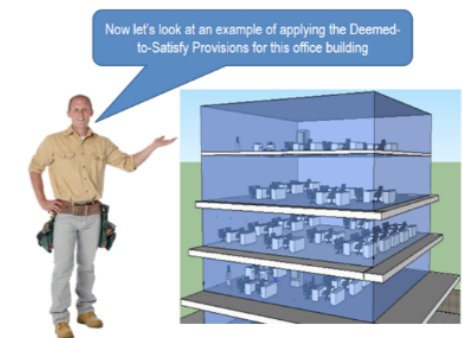

- Compliance with the NCC is achieved by satisfying the Performance Requirements and the supporting General Provisions

Notes:
1. The term Performance Solution was formerly known as Alternative Solution.
2. The terms Performance Solution and Deemed-to-Satisfy Solution were formerly used under the term Building Solution.

Slide example

Example: Applying NCC Volume One

- Classification
- General Access Requirements
- Number of Facilities Required
- Accessible Sanitary Facilities
- Accessible Features

Now that we've covered what is in the relevant parts of Volume One, let's consider an example of applying the Deemed-to-Satisfy Provisions.

The next few slides will follow on from what we have just read in the context of an office building and determining the number and types of sanitary facilities required.

Listed on the right hand side of the screen are some of the items we need to consider in applying the requirements.

Slide with notes (script) example

NCC Tutor – NCC: A Performance Based Code –
Assessment Questions

NCC: A Performance Based Code – Assessment Questions

Answers are indicated in red.

- Question 1
True or false? If the NCC references a document such as an Australian Standard, this document becomes a regulatory document.
a) True
b) False
- Question 2
Volume Three of the NCC pertains primarily to:
a) The design and construction requirements for Class 2-9 buildings
b) Plumbing and drainage associated with all classifications of buildings
c) The design and construction requirements for Class 1 and 10 buildings
- Question 3
True or false? Prescriptive regulations prescribe the level of performance that must be achieved but do not prescribe a means of meeting the requirements.
a) True
b) False
- Question 4
True or false? Performance Requirements are an optional compliance pathway.
a) True
b) False
